SUMMARY

DIAMO IS A NOVEL, BLOCKCHAIN-BASED FINANCIAL PRODUCT: THE FIRST OFFICIAL, EU-REGULATED, ASSET-BACKED BOND WITH SMART CONTRACT INHERENT GROWTH MECHANISM.

INVESTOR'S BENEFITS:

1. smart contract-programmed growth
2. guaranteed direct access to the tokenized diamonds
3. blockchain-based lending platform for instant liquidity

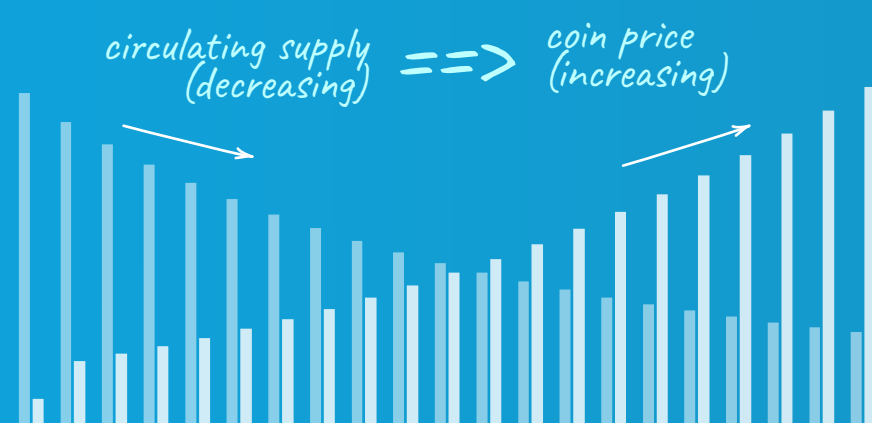

“A diamond has absolutely zero correlation with any other asset class, whether it’s commodities, bonds, equities. It’s a store of wealth, it’s a hedge against volatility and you need that in your portfolio.”

Bloomberg

OUR DEFINITION OF "GROWTHCOIN"

A traditional, asset-backed stable coin that is backed by a historically growing asset that can be acquired at large discounts with expert knowledge and large transaction volumes, and implementation of a revolutionary, smart contract-inherent mechanism* that additionally triggers the value growth of the growthcoin.

THE MOST FLEXIBLE FINANCIAL PRODUCT

DIAMO guarantees

- direct access to physical asset (diamonds)
- instant cashout to FIAT
- integrated lending platform: be liquid and stay invested

REGULATED SECURITY TOKEN

- DIAMO will comply with all necessary regulations in Europe
- To be approved by FMA (Financial Market Authority Liechtenstein)
- DIA will be a EU-compliant regulated security token as a bond

A NEW REGULATION CLASS

- Tradable on traditional european stock markets
- Cooperation planned with major stock markets in Europe (e.g. Stuttgart, Berlin, Frankfurt)
- Extreme broad investor group – No-Coiners are reached, too

TRIPLE GROWTH MECHANISM

- Perpetual demand generation strategy
- Extremely attractive asset
- Proven marketing expertise (raised > 130m USD equivalents)
- empowered by blockchain-secured marketing budget

“Unlike gold, and oil, diamonds have not had much price volatility, in part because they have not been touched by large flows of speculative money.”
